# About Green Air Conditioning

*Delivering innovative, energy-efficient cooling solutions, tailored to meet diverse consumer needs with a focus on quality, value, and sustainability.*

We are a proudly South African company that specialises in providing premium air conditioning solutions across Southern Africa. With our head office strategically located in Jurgpark Unit 8, Corner of Jakaranda Street and Jurg Avenue, Hennopspark, Centurion, we are perfectly positioned to serve customers from all corners of the region. Our presence is supported by a robust network of partners, franchises, agents, and dealers, making it easy for us to reach and service clients across Southern Africa, from urban centres to remote industrial sites.

# Our Vision & Mission

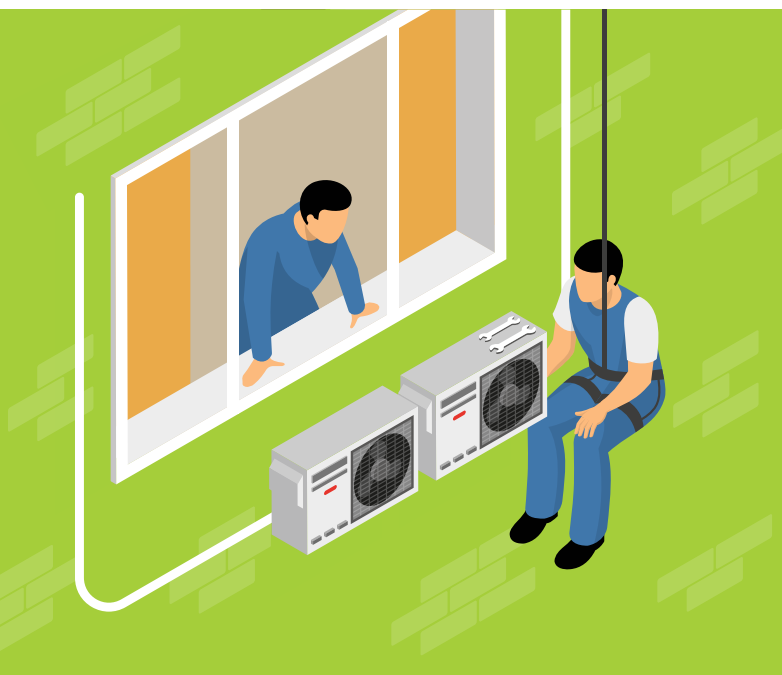

## Our Mission

Our mission is to create comfortable and energy-efficient environments for homes, offices, factories, mines, and other industrial sites throughout Southern Africa. We aim to be the leading provider of air conditioning solutions, known for reliability, innovation, and unmatched customer support.

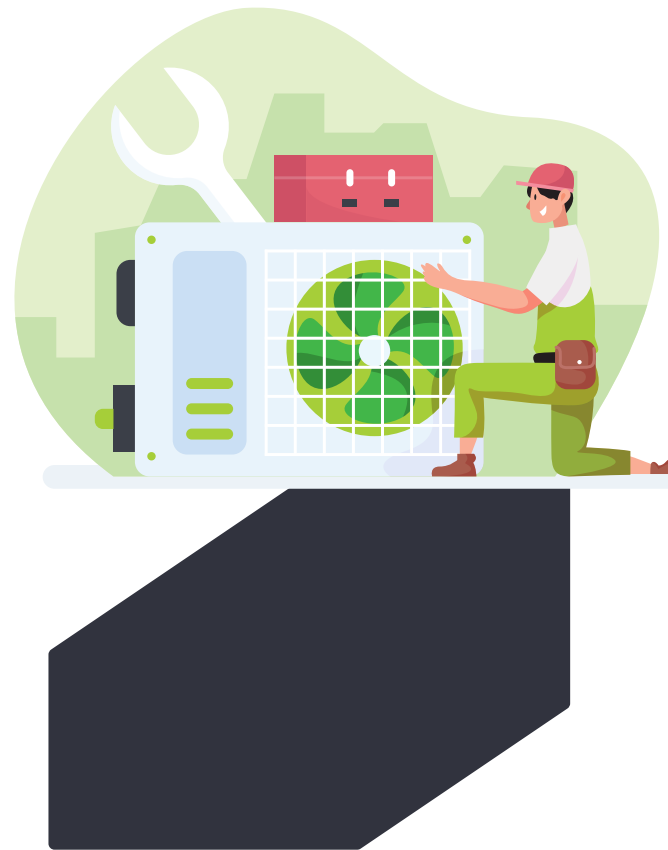

## Our Vision

We envision a future where every home, business, and industrial site benefits from sustainable air conditioning systems that enhance comfort while reducing the carbon footprint. By continuously pushing the boundaries of efficiency and innovation, we strive to help our customers create healthier, more comfortable living and working environments.

# Our Services

*At Green Air Conditioning, we offer a wide range of air conditioning solutions designed to meet the diverse needs of our clients. Our product range includes:*

01

## Residential

Perfect for homes of all sizes, our residential units are designed to provide reliable and efficient cooling and heating solutions. Whether you need to cool a single room or an entire house, we have a solution that fits your needs.

02

## Commercial

Our commercial air conditioning systems are ideal for offices, retail spaces, and other businesses. We understand the importance of maintaining a comfortable environment for employees and customers, and our systems are built to handle high demand with ease.

03

### Industrial

We offer heavy-duty air conditioning systems suitable for factories, mines, and other industrial applications. Our industrial units are designed to operate under the most demanding conditions, ensuring optimal performance even in extreme environments.

04

### Custom Solutions

For clients with unique requirements, we offer tailor-made solutions that can be customised to fit specific needs. From energy-efficient systems for environmentally-conscious clients to large-scale installations for industrial complexes, we can design the perfect solution.

# Why Choose Us?

*There are many reasons why Green Air Conditioning is the go-to choice for air conditioning solutions in Southern Africa:*

-  **Expertise Across Multiple Sectors:** We cater to a wide range of sectors, including residential, commercial, and industrial.
-  **Energy-Efficient Systems:** Our commitment to sustainability means that our air conditioning systems are designed with energy efficiency in mind.
-  **Comprehensive After-Sales Support:** At Green Air Conditioning, we believe in building long-term relationships with our clients.
-  **Highly Trained Team:** Our team consists of highly trained professionals who are experts in the field of air conditioning.
-  **Nationwide Reach:** With partners, franchises, agents, and dealers located across Southern Africa, we can reach clients in even the most remote areas.

# Our Service Areas?

## Partners

We work closely with key partners to distribute our air conditioning systems across the region.

## Franchises

Our franchises provide localised expertise and support, ensuring that customers receive prompt and reliable service.

## Agents

Our agents are strategically placed throughout Southern Africa to offer expert advice and assistance.

## Dealers

Our trusted dealers stock our products and provide end-to-end support for installation and maintenance.

# Commitment to Quality

At Green Air Conditioning, quality is at the heart of everything we do. Our systems are built to the highest standards, ensuring reliability and durability. We use cutting-edge technology to create air conditioning systems that are not only powerful and efficient but also user-friendly and environmentally responsible.

# Environmental Responsibility

We take our environmental responsibilities seriously. Our systems are designed to be energy efficient, which helps reduce energy consumption and lower carbon emissions. In addition, we continuously strive to improve our products and practices to minimise their environmental impact.

# Our Promise

## **Uncompromised Quality:**

We promise to provide only the best quality air conditioning systems that meet your specific needs.

## **Expert Support:**

Our team of professionals is always ready to offer expert advice, whether you need help choosing a system or require maintenance support.

## **Sustainability:**

We are committed to reducing the environmental impact of our products through energy-efficient technologies and responsible practices.

## **Customer Satisfaction:**

Your satisfaction is our top priority. We go above and beyond to ensure that every customer has a positive experience with Green Air Conditioning.
